

Radio Tactics Brings Data Extraction to the Frontline with Launch of Aceso Field

- Radio Tactics introduces new device intelligently developed for accessing in-field evidence, particularly in high pressure situations
- Aceso Field enables police officers to examine and interrogate digital mobile devices quickly and accurately from a lightweight, robust handheld terminal
- Aceso Field offers comprehensive, evidentially proven reporting of data acquired from mobile devices

London, 11th October 2010

Radio Tactics Ltd www.radio-tactics.com, a specialist innovator of high-tech digital intelligence and evidence gathering solutions has today launched the much anticipated **Aceso Field**, a portable solution for extracting evidentially sound data from mobile digital devices, SIM and media cards. Aceso Field is a truly portable solution, giving officers on the front line instant access to all the benefits of Aceso, which has until now been an office based tool.

Aceso Field has evolved from the original Aceso product, which is widely used by police forces around the world to retrieve evidence and intelligence from mobile devices, opening up additional lines of enquiry, providing actionable information and increasing arrest rates. Weighing only 1.1kg, this new rugged, portable version of Aceso can be used in the field and with its rapid extraction times it offers users immediate, actionable evidence. Special features of Aceso Field include:

- Easy to use, guided acquisition process suitable for users of all abilities
- Unrivalled compatibility testing for GSM, CDMA and GPS mobile devices
- Simple to use touch screen technology and a 7 inch sunlight readable screen
- Complete, detailed acquisition audit trail with all data AES encrypted
- Critical details logged, including time and date, geotagging, make and model of device used
- Hot swappable batteries that can support 8 hours continuous use

Radio Tactics takes great pride in the fact that each of its products can be fully customised to the specification of the client, enabling every product to reach its optimum potential for the end user. The highly dedicated team at Radio Tactics offers technical assistance and advice, providing comprehensive support to every client on an individual basis.

Andy Gill, Radio Tactics CEO commented:

“As always, at Radio Tactics we are committed to working in partnership with our customers. After listening to feedback, we discovered there was a real demand for a portable version of our popular Aceso product. In response to this need, we have developed Aceso Field, a pioneering solution to give police officers in the field instant access to evidence and intelligence that may be of vital importance to their investigation and ultimately lead to the arrest of suspects.”
